The Global Alliance for Vaccines and Immunization and its financing arm, The Vaccine Fund, is a partnership dedicated to saving children's lives and protecting people's health through the widespread use of vaccines. Harnessing the strengths and experience of multiple partners in immunization (WHO, UNICEF, the World Bank, the Bill & Melinda Gates Foundation, NGOs, country governments and the vaccine industry), the GAVI partnership provides poor countries with catalytic financial aid and other assistance. GAVI fact sheets are published annually (February) by the GAVI Secretariat and the information contained therein may not be the most up-to-date obtainable.
